The Sioux Sun Dance.

A Yanktown, Dakota, dispatch of June 21st says: The young men at Spotted Tail's camp are just concluding their annual "Sun dance," and the barbarous festival has been of more than ordinary success. Forty-eight candidates passed through the terrible ordeal of self-torture, and are entitled to full diplomas as warriors of unquestioned bravery. The candidates for honors cut two longitudinal slits down each breast, one end of a lariat is passed under the strip of skin and flesh between the incisions and tightly tied, and the other end is made fast to a high pole. The candidate then throws himself backward with his weight upon the lariat and the dance goes on until the flesh gives way. Should he fail to break loose in the manner prescribed, or should he faint during the operation, he is forever disgraced. The "Sun dance" just closed was held about fifty miles back from the Missouri river, and was witnessed by about 7,000 Indians and 25 whites. Old Spotted Tail was master of ceremonies, and from the manner in which he performed his incantations and flourished his mystic wand, from which dangled the scalp of a white woman, one would not suppose him to be a civilized white man who is carried upon the government pay rolls. Once a year Spot has his fun. The "Sun dance" has closed, and Spotted Tail's Indians are now ready for the government to move them to a new agency.

Bank Robbery.

A robbery was perpetrated on the First National bank of St. Louis, Mo., June 21st. Shortly after noon some parties entered to make deposits, the cashier being alone at the time. After they had left the cashier went to the vault to place some money therein, and discovered that three packages of \$3,000 each had been taken. Smaller packages, amounting to \$2,700, are also missing. The cashier is certain the money was in the bank when the day's business began. There is no back entrance to the bank and no suspicious characters have been seen about during the day. The bank had a surplus fund of \$20,000, and the loss will not embarrass it in any way.

Anderson's Reasons.

A Washington special to the New York Tribune says: Anderson's real reason for refusing to testify before the Matthews committee is that he fears being convicted on cross-examination of perjury and forgery, which would land him in the penitentiary. He fled the city when first wanted by the Matthews committee, under circumstances that indicated that he was being aided to escape by the Democrats, and he stated to-day that the Springfield committee had advised him in his present course. He was brought here in charge of an officer, having only been found after Congress adjourned. It is probable that the committee will do nothing further at present.

Air Ship.

Professor Richtel's air-ship made a successful ascension in Hartford, lately. The operator was a young man weighing ninety-six pounds, whose nerve was equal to his muscle, for he went up from the inclosure of the ball-grounds to a height at least twice that of the spire of the church of the Good Shepherd and then struck off in an easterly direction towards the river, intending, as he afterwards said, to cross the Connecticut. As it was apparent that a storm was coming up, the Professor signalled to him to return. The operator turned the car around in mid-air and returned, descending at the Professor's feet. Previous to this flight the operator ascended, turned the car about and descended several times, to show his perfect control over the machine.

Ladies Not to be Assessed.

The New York Tribune's Washington correspondent says the Secretary of the Republican congressional committee has forbidden the collection of money from the lady clerks in the departments, and he says that the few instances in which the ladies employed by the government have been asked for subscriptions have been the result of mistakes.

Two Murders and Suicides.

David Crawford (colored), a dweller on Beech island, South Carolina, killed his wife and himself the other night, and the following morning a white man named Ferrie killed a woman with whom he cohabited and then himself.

A Secret Chapter of the Assassination of President Lincoln.

A Tribune's Washington special of the 22d has the following on the assassination of Lincoln: An eye witness relates that on the night of the assassination a private dinner party was in progress in the back room at Wormley's restaurant in Washington, at which were present General Baird, Robert Johnson, Samuel J. Randall, John Morrissey, John F. Coyle, editor of the National Intelligencer, and one other man. During the progress of the dinner, the waiter, who had been out on the street, returned and stated that the President had been shot at Ford's Theatre. The news created great consternation in the party, who at first thought the waiter was drunk or crazy. Later, when they were assured that it was a fact and that John Wilkes Booth was accused of the crime, Coyle, with blanched features and quivering lips exclaimed, "My God, gentlemen, this very day I met John Wilkes Booth on Market place. He was on a bay mare and rode up to me and handed me a sealed letter, saying as he did so, 'If you hear of me within twenty-four hours publish this; if you do not hear of me within that time, destroy this,' and rode off. Here is the package," continued Coyle, producing a letter envelope from his pocket. "What shall I do with it?" "Destroy it at once," said Randall. "They will hang anybody who knows anything about the assassination, no matter how innocently they came by the knowledge. Don't open it, but burn it up just as it is." "Yes," said Morrissey, "burn it up, for God's sake at once." The door was carefully locked, a fire was made in the grate and the mysterious envelope and its contents carefully burned. Even the ashes were carefully collected and placed in a dish and water was poured upon them, and the two were mixed into a paste which was put into the fire and burned again.

Shot His Bride's Foot Off.

The Sidney, Ohio, Journal says: "The strangest of strange accidents, and one which might have led to graver results, happened at the residence of C. H. Flinn, near Houston, last Friday night. Mr. and Mrs. Flinn who were but lately married, were awakened by a noise which they thought came from under the bed. Supposing burglars to be the cause, Mr. Flinn hurriedly jumped from the bed, got a shotgun and returned. Mrs. Flinn, all excitement, was just rising, and had her right foot hung over the bedside. Mr. Flinn, supposing the moving foot to be the head of an intruder, who was coming from his place of concealment, without any ado or hesitancy, fired. The wife screamed and the husband flew about in a delirium. Mr. Flinn discovered that he had shot his wife instead of a burglar. Meanwhile, the bed clothing caught fire from the discharge of the gun, and was soon ablaze, but was quickly extinguished. Mrs. Flinn had a large part of her foot torn away, and was bleeding profusely. It was thought that amputation of the whole foot would be necessary, but it was afterwards found that three toes and a portion of the side of the foot would suffice. It was ascertained that no burglar was in the house after all."

601 in Eureka.

We hear it whispered around town that there has been a session of the 601, and that it will be followed shortly by the issuance of a number of invitations to certain gentry to emigrate to more congenial climes. The presence of a number of undesirable sojourners in the town, the prevalence of a general feeling of insecurity, and a desire to rid the community of this undesirable class without recourse to the uncertainties of the movement.—Eureka Sentinel.

Honestly.

Eureka Sentinel: They tell a very good story on a minister in a neighboring town. He thought he recognized a lady friend leading a little boy up the street, and stopping to her side he asked, "Why, Mary, where did you get the child?" The scarlet face instantly turned to his was that of an entire stranger, and her quick reply fully satisfied him. "I came by it honestly," was all she said, and the good old man had something to think about all the way home to dinner.

Shoshones Going North.

Saturday morning twenty-five well-armed Indians crossed the railroad track near Argenta going north. Constant reports come in from the line of the Eureka and Palisade railroad of small parties of Indians passing north, nearly all such being armed.

A JUDICIAL JOB.

A private letter from a prominent Republican in Ormsby county reveals another kind of argument, and another phase of the rule or ruin policy. Our informant states that Judge Wright is now attempting to overthrow the decision of the Republican State Central Committee in regard to the apportionment of delegates. The method is a new one, and accords with precedent as nearly as some of the Judge's legal decisions. He boasts of controlling absolutely the counties of Ormsby and Douglas in the judicial fight, but fears that he cannot boss the cow county with its honest ranchers. This would-be third former, therefore seeks to reverse the decision of the party's executive body for this State, through the County Central Committees of these three counties Douglas and Ormsby he claims to control; he will therefore ask Washoe to give up her apportionment and take a less number to the judicial convention. Claiming Douglas and Ormsby at the top of his voice, a reduction of Washoe's apportionment would give Mr. Wright a dead thing. As it now stands he has, according to his own computation exactly an even show. He probably recognizes the fact that almost any Republican will beat him with the chances even, and hence he has studied up this novel plan for settling matters. No thought is taken of the probability that such action would array many Republicans of this county against the ticket; that is a secondary consideration with Mr. Wright. He don't want to go before the people if he can help it. Star chamber proceedings and committee action is what he craves.

As before stated, the present apportionment gives Mr. Wright an even chance for the nomination. The change which he is attempting will, he thinks, give him a slim thing by ignoring Washoe county. The scheme mentioned is, of course, impossible of accomplishment and the people should determine why this judicial aspirant is afraid to come before them with an even chance. The apportionment given us is in accord with our importance as a county and our interest in the judicial business of the district. It cannot be stolen or given away, and Mr. Wright ought to know that to attempt such a barefaced job is merely to make his defeat more certain than it is to-day. Our correspondent suggests that the scheme originated in the ponderous brain of Deacon Parkinson. It is sufficiently shallow and impracticable to claim such an author, but considering Judge Wright's action eight years ago, when he turned Democrat because Judge Harris beat him in convention, we will award this invention to Mr. Wright. A few more brilliant stratagems like this, and the corporal's guard, which now follows Mr. Wright in Washoe, will become disgusted and disband.

EDITORIAL NOTES.

The German courts have decided that a railroad company is liable for damages for frightening a person to death. The question arose from a case where a woman died from fright occasioned by a railroad accident near her home. The cars ran off the track into her back yard, and she thought the house was falling down. After her death the company was sued for \$10,000 damages. The courts—the case being appealed from one to another up to the superior commercial court—all decided that the railroad company was liable for the woman's death, the same as if the cars had run over her.

Kearney has carried San Francisco and the State of California. The metropolitan journals, or a majority of the number, hail him with sarcasm as King, but Kearney does not seem to mind it much. In the Gazette some weeks ago appeared a San Francisco letter which described Kearney's position exactly. He then had control of the city, and he now controls the constitutional convention. Politicians should learn that great force may come out of simple causes. That to abuse an opponent is not to defeat him.

Mrs. Mary A. Jenks is the last novelty secured for exhibition before

the Potter committee. That body has collected and displayed in the interests of Democracy some very choice specimens of the genus perjurer, and Mrs. Jenks is a fine sample of the cheek which is raised in Louisiana. The Potter committee can justly pride itself on being the most unfortunate lot of conspirators ever assembled. Their position at present resembles that of a rattlesnake whose fangs have been drawn.

Mrs. Bowers says she saw a man at the bottom of an old deserted shaft with his head all caved in. She also affirms that the murderer is walking the streets. Mrs. B., however, does not indicate the shaft or ask a reward for the murderer, so the matter hangs fire. There is nothing remarkable about Mrs. Bowers' seeing a man in a shaft. Some women see a man every place. It is remarkable, however, that the sayings and doings of this silly old lady are not kept within her own family circle.

The Eureka Sentinel says, in reply to a Tribune growl at the White Pine war claims, "There is hardly a business man in Carson who has not wrung from the Treasury, through the medium of fraudulent relief bills, more than the whole cost of our bloody war." Parkie very seldom learns the iniquity of a bill until it becomes a law.

Frank Kenyon, on account of his ill health, wants to sell his three newspapers—the Lyon county Times, Bodie Standard and Esmeralda Herald. Here is a good chance for the outside smarties who think they can run newspapers better than any of the ordinary scrub editors.—Reveille.

The Times-Review pronounces unequivocally for A. M. Hillhouse for United States Senator. A. M. Hillhouse will go down to Tuscarora and requite Mr. Dennis after his defeat.

Dr. Todd and his wife, of Bethany, Pennsylvania, were separated by divorce. The decree awarded the custody of their little boy to the mother, and she took him to her new home in Iowa. The doctor kidnapped the boy and carried him back to Bethany. The mother followed, got possession of the child again and started off with him. The fugitives were found hiding in a haystack, which the pursuers surrounded. Then Mrs. Todd emerged, leading the boy with one hand and holding a cocked revolver in the other. She was not molested.

FELLOWS' Compound Syrup!

HYPOPHOSPHITES.

THIS DISCOVERY

Is the result of a series of Scientific Experiments based upon the theory that "for the successful cure of Wasting Diseases, the nervous system must be made vigorous and healthy."

One of the first symptoms of disease affecting either the Liver, Lungs, Heart, Stomach, or Genital Organs, is a loss of nervous power. This is followed by muscular relaxation, weakness, and emaciation of all the organs which depend for health or involuntary muscular action, the weaker suffering first.

The inventor, acting upon this idea, that the muscles and nerves depend upon each other for efficient strength and action, and that they must be treated directly in order to speedily and permanently cure diseases of the organs which they control, became convinced, after months of experiment, that no other preparation contained so potent and direct effect upon the nervous system as his

Compound Syrup of Hypophosphites and except in cases of actual organic loss, that it would restore patients suffering from those maladies.

Amongst the diseases overcome by the use of this remedy are the following:—Chronic Constipation, Chronic Dyspepsia, Asthma, Chronic Bronchitis, Consumption, Chronic Diarrhea, Chronic Laryngitis, Melancholy, Nervous Debility.

Debility, resulting from Typhoid and other low fevers, Diphtheritic Prostration, Hysteria, Hypochondria, Nervous Excitability, Marasmus or Wasting of the Muscles, Aphonia or Loss of Voice, Stiffness of the Liver, Interrupted and Feeble Action of the Heart, Surfering of the Lungs and Air Passages leading thereto, and Debility from various causes. Indigestiveness and habitual Costiveness almost always arise from weakness of the muscles and nerves of the stomach and bowels. In such cases, Fellows' Compound Syrup of Hypophosphites has proved itself of the greatest service by inducing healthy peristaltic action of the intestines. The evacuations soon become copious and healthy, without producing the effect of purgative medicines.

Weakness of the Blood, and INWARD WASTING may be cured by attention to the regular described doses, and by due regard to the habits of life.

FELLOWS'

Compound Syrup of Hypophosphites

The power of arresting diseases displayed by this preparation is honorably acknowledged by the medical faculty in every section where it has been introduced, and the large sale is the best guarantee of the estimation in which it is held by the public.

This syrup will cure PULMONARY CONSUMPTION in the first and second stages, will give great relief and prolong life in the third. It will cure ASTHMA, BRONCHITIS, LARYNGITIS and COUGHS. It will cure all diseases originating from want of MUSCULAR ACTION and NERVOUS FORCE.

MARRIED.

BROGAN-HURLEY.—In Reno June 23d, 1878, by Rev. Father Pettit, J. B. Brogan, of Fresno Creek, to Miss Kate E. Hurley, of San Francisco.

BORN.

HYMERS.—In Reno June 24th, to the wife of T. K. Hymers—a daughter.

DIED.

JOSE.—In Reno June 23d, 1878, Maggie E. Jose, aged six months.
[Funeral from the Methodist church at 4 o'clock P. M. to-day.]

AH CHOUVEY TO HANG.—The jury in the case of the State vs. Ah Chouvey brought in its verdict at 7 o'clock Saturday evening. Their verdict is for murder in the first degree. Court adjourned until next Thursday, when Ah Chouvey will receive his death sentence. The celestial bears a bad name among the Chinamen. One John say "Ah Chouvey heep bad man; kill 'one Chinaman in Virginia city, one in Carson and one in Reno." He is a hard case and no doubt deserves hanging. He is, beyond question, a paid murderer, and as such should hang.

GLASS BALL SHOOTING.—The Reno Sportsmen's Club met yesterday afternoon a short distance west of the Lake House, set their glass ball trap and enjoyed a little machine shooting. In the first part of the sport Charlie Stoddard and Mr. Jackson tied. Mr. Jackson soon left the field, and in the subsequent shooting Stoddard stood first, Allen Bragg second, Ben Bacon third, and Matt Parrott fourth. Chamberlain and Alexander tied for fifth. Next Sunday afternoon the sport will be resumed.

USEFUL ABOUT A HOUSE.—Mr. I. D. Cross' fire escape ladder has received the additional improvement of a pulley swing, by which invalids and other furniture may be lowered from any story in a building, which is supplied with a fire escape, in safety to the ground. By the same device the firemen's hose may be quickly carried up to the height desired. These useful escapes will cost you, dear reader, the moderate sum of \$90, extra finish, \$100.

BULLION.—On Saturday night the following amount of bullion was shipped to San Francisco: 15 bars of California, valued at \$76,906 67; 19 Con. Virginia, \$35,284 90; 8 P. M. & M. Co., \$13,517 19; and 4 other bars.

Jottings.

—For a cargo of congressional speeches Wren and Jones have our undivided thanks.

—Mr. E. P. Crouch, a gentleman connected with the Oakland press, is visiting his cousin, Mr. C. T. Bender.

—Theo. Winters started to Louisville, Kentucky, last night. He goes to see Mollie McCarthy beat Tenbroeck on the 4th of July.

—Some would-be kind individual has sent us a quantity of music "for the press." A keg of b-r—soda water would be preferable.

—E. Chielovich & Co., wholesale and retail liquor dealers, announce themselves through the medium of an advertisement to-day. Read it.

—Steamboat was enlivened by a party of Hebrew citizens, who had as guests a number of ladies and gentlemen from San Francisco, Sunday.

—The wood shipments at Huffakers average about eighteen carloads, shipped to the Comstock per day. Nearly one hundred Chinamen are employed as wood loaders.

—A number of friends living near J. C. Smith's propose giving a little home picnic on the Fourth at Mr. Smith's ranch, which is some two miles south of town.

—Quite a number of ladies and gentlemen from Virginia city, Gold Hill, Carson and near Franktown gathered at Bowers' Mansion yesterday to pass in recreative sport the hours away.

—By glancing over our advertising columns, it will be seen that Reno will not be without amusement on the Fourth. In the evening a ball will be given at the opera house by Mr. John McGinley.

—T. K. Hymers now goes about streets whistling "Baby Mine, Baby Mine." He would sing, but it has a bad effect on his dog Dick. This faithful old canine has pains in his head whenever his master warbles.

—A picnic from Reno to Bowers' Mansion for July 15th is talked of. Half-fare and a day when all can get away from business is the reason assigned for holding on Sunday. The same might hold true on some Saturday.

—Sometime this week the C. P. & V. T. freight office employees will receive an electro telephone from the East. The object is to have communication one office with the other and thus save several business trips each day.

—At last the State arms are of some possible service. The old Governor has granted Alvaro Evans permission to use a quantity of said firearms to defend his stock in Humboldt against the untamed savage. When no Indians are near the herders can shoot rabbits, and when the red devils are around—well, that's another case.

—And now the weary tramp, as he rides on the brake-beam of a box car, reflects to himself as he tires of his hold, if I should fall, Beecher has said there is no hell, and death is not a horrible thing after all. And yet he holds on as if he was afraid Beecher might not have entirely reliable information from the outside precincts.

Personals.

D. A. Bender is in town.
J. P. Jackson, of Virginia, was in town Saturday.

J. E. Jones, Superintendent of the Jones & Kinkead mine, returned from Winnemucca last night and went to Pyramid to-day.

Matt Canavan, President of the Nevada State jockey club and a prominent mining Superintendent of the Comstock, went to San Francisco Saturday night. He will talk races during his absence.

N. D. Roberts, advance agent of the Tony Pastor troupe, was in town yesterday, and this morning went to Virginia city. The troupe will play in Piper's opera house the first week in July. We trust that they will favor our citizens with an entertainment on their return.

New Mine.

The old record of the Juniper claim at Pyramid, was filed for record in the Recorder's office to-day. The new company will be incorporated to-day. This claim lies adjoining the Jones & Kinkead, and is said to contain some excellent ore, which has assayed as high as \$270 to the ton. It has been prospected in several places and gives most favorable indications of being a very rich mine. The work of developing it will actively commence in a few days.

PYRAMID NEWS.

Revival of Activity—News from the Mines.

George Alt, one of Pyramid's old friends and a good man for this or any other county, returned from Pyramid last night. He reports the new road from the old town to the Jones & Kinkead mine now completed, and it greatly facilitates the work of hauling ore from the mine.

The Monarch is running one shift of men in its tunnel, which is now 325 feet in length. The Monarch company may strike the ledge at any time now, and when it is cut the tunnel will be 160 feet below the surface.

The contractors have commenced hauling ore from the Jones & Kinkead, and forty tons arrive at the English mill to-day.

Mr. John Hymers has opened a hotel and lodging house in the lower town. John knows how to care for the wayfarer, and those who visit the new camp may be assured of good treatment.

There are between fifty and sixty men in the camp and more are constantly arriving. There is talk of starting several other claims soon. Two or three experts from San Francisco have visited the camp recently. It may safely be said that Pyramid is entering upon a new era of prosperity, and if the ore now hauled to the Auburn mill can be reduced profitably—and there is little doubt of the fact—Pyramid will take rank next to the Comstock.

Workingmen's Meeting.

A fair crowd assembled on Saturday night at Earl's depot, to hear several speeches from Workingmen. Mr. J. A. Jones, was elected President, vice Cutting who resigned. Mr. Hoole made a speech in which he attached blame to the committee, who waited upon Mr. Peleg Brown, in reference to the construction of the Truckee and Steamboat irrigation canal. He said, Mr. Brown told him in Carson, that he, Brown, offered to give the Workingmen the job and the committee turned away from him.

This committee was also requested to give a written report and no report in writing can be found, and, it is asserted, never was made. Mr. Leeper made a good speech, and among other remarks gave the carpenter, A. C. White, a benefit, as follows: "One of our disaffected members, who prides himself as a reformer, attended the tax-payers' meeting and tried to bulldoze investigation of county affairs by moving to add all the county officers and the two grand juries to the Committee of inquiry into county affairs. Then I dropped him as I would a spoiled egg and one eternally gone. This man is our reformer—Mr. White. A nice reformer he is. Mr. White arose to explain, and said he would give two dollars to Leeper's one to carry on the investigation. He tried to speak further, but was prevented by the audience who cried him down.

Mr. Jones then made one of his characteristic speeches and the meeting adjourned to meet at the same place next Saturday evening. At which time a secretary will be elected and a number of speeches made.

VERDI NOMINEES.—From a gentleman from Verdi we learn that a political non-partisan convention was held in Verdi yesterday, and the following gentlemen nominated for the respective offices for which they are named: for Assemblymen, J. P. Foulks and R. H. Hoy; District Judge, S. A. Hamlin; Sheriff, — Padgett; County Commissioner, Ike Alexander; District Attorney, W. S. Coldron; County Clerk, John Condon; Recorder and Auditor, Cris Haller; Treasurer, Mark Hammer; Superintendent of Public Schools, George Tilford.

JUSTICE COURT.—A civil case between Mrs. Mary Jones vs. Mrs. C. O. Cole, was tried this afternoon in the Justice Court. Webster in linen coat to suit the times, appeared for the plaintiff. Julien in his best clothes and hair puffed, likewise Waldo with a new pair of pants one inch too short, appeared as counsel for the defendant.

COMMENCED.—The Auburn mill was started up this morning by Messrs. Jones & Kinkead on Sunrise ore. There is only about twenty tons of this ore, which will only be milled as a sample rock from the mine and will be run through to-day. To-morrow the mill will start up on Jones & Kinkead ore.
